## **I. Non-Action Items**

### **A. CAPITAL PROJECT UPDATE - M. Fanning, Mosaic Associates**

Mr. Michael Fanning of Mosaic Associates provided an update on the Infrastructure Upgrade Capital Project approved in May 2016. He stated that Phase 1 of this project has been mostly completed over last summer and throughout this school year. Phase 1 included work at all of our schools throughout the District.

Phase 2 of this project has been affected by the high demand in the construction market therefore making it difficult to find bidders for the Phase 2 contracts. Phase 2 includes three contracts: one for the work at the high school and middle school, another for the work at School 18 and a third for all of the other buildings. Mosaic went back out to bid for the high school and middle school work and have successfully awarded contracts for this work, which has commenced.

High demand for the construction work has led to the bids for the high school and middle school work to be higher than expected making it difficult to complete all the work originally intended. Due to this, Mr. Fanning recommends deferring the School 18 heating system work to a future project which would also include renovations to the school.

Discussion: Mr. Mayo asked when the School 18 work would begin if deferred from this project. Mr. Carmello stated that School 18 was slated for the majority of its work in Phase 2 of this current project, and proposed a new capital project vote for the Fall of 2018 for the School 18 work. He also said that the new project would need to also include the work on the THS roof and School 16. Mr. Hotaling stated he was disappointed that this current project could not accomplish everything we set out to do. Mr. Carmello stated that he agreed, however, with the current construction demand we cannot get the price we want or even any bidders on projects because they are too busy. Ms. Marro-Giroux also stated to the Board that the construction industry does fluctuate and reminded them that with the TMS project they received a "bang for their buck." Mr. Carmello stated that all of this needs to be discussed more in the future. Mr. Hotaling added that he would like to time future projects to coincide with the falling off of our debt service.
