ACCEPTABLE USE POLICY**

The Board of Education is committed to optimizing student learning and teaching. All users of the district's computer network and equipment shall comply with this policy and regulation. Failure to comply may result in disciplinary action as well as suspension and/or revocation of computer access privileges.

The Superintendent shall be responsible for designating a computer network coordinator to oversee the use of district computer resources. The computer coordinator will prepare in-service programs for the training and development of district staff in computer skills, and for the incorporation of computer use in appropriate subject areas.

The Superintendent, working in conjunction with the designated purchasing agent for the district, the computer network coordinator and the instructional materials planning committee, will be responsible for the purchase and distribution of computer software and hardware throughout district schools.
