

HIDDEN DANGERS

NOPIATES
COMMITTEE

ACCA Prevention Team & Rens. Co. Student Assistance Program Counselors will host an interactive & informative workshop for families. The presentation will help caregivers identify and understand the signs and dangers of vaping, dabbing and other drug use, even if they don't suspect that their child might be using. There will also be a demonstration of hiding places within a teen's bedroom. Families will receive information on why and when to search, how items are used, and how to have a conversation with their loved one about their concerns. Additional resources will be available. All are encouraged to participate.

WEDNESDAY, MAY 3RD, 2023

6:30PM, SHAC CENTER

27 LAKE AVE., AVERILL PARK, NY
